

HPV & Cancer Myths vs. Facts

Free patient education sessions from the Lippincott Resource and Education Center (REC) online on Zoom.

TITLE: HPV & Cancer Myths vs. Facts

DATE: Tuesday, March 18, 2025

TIME: 12:00-1:00 p.m.

LOCATION: On Zoom

SPEAKER: Julianna Maita, MPH

EVENT DESCRIPTION: HPV, Human Papillomavirus, is the most common sexually transmitted infection. HPV is usually harmless and goes away by itself, but some types can lead to cancer or genital warts. Cervical and Head and Neck cancers are 2 of the 6 cancer types associated with HPV. Although there is no cure for HPV, there are vaccines to help prevent infection. Both boys and girls should get the HPV vaccine. During this presentation, learn more about cancers associated with HPV, options for screening, and vaccine efficacy & safety.

To Register call the REC at 215-214-1618, email RECstaff@fcc.edu or register online at FoxChase.org/events
